Sesiunea 5 — Bloc E: Redesign Vizual

Data: 2026-04-04 | Student: 2020nc

1. Introducere

Sesiunea 5 Bloc E acopera: stepper /rezervari (M10), contrast WCAG AA (M11), paleta espresso/crem/oliv + font Playfair (M12).

2. Modificarea 10 — Stepper Vizual /rezervari

Formular impartit in 3 pasi: (1) Data & Ora, (2) Detalii personale, (3) Confirmare.

State: useState(1) pentru currentStep. Fiecare pas are validare proprie.

Ore diferite L-V vs Sam-Dum (getOre()) pe baza new Date().getDay()).

3. Modificarea 11 — Contrast WCAG AA

text-gray-400 pe bg-gray-800 = 3.9:1 (ESEC). Corectat la text-gray-300 = 7.4:1 (PASS).

Fisiere: components/FooterStarter.tsx, app/page.tsx.

4. Modificarea 12 — Paleta + Font

Pasul 1: Playfair Display via next/font/google, variabila --font-playfair, aplicata pe h1/h2.

Pasul 2: Paleta in @theme inline (globals.css) — Tailwind 4 nu are tailwind.config.ts.

espresso-800: #3B1F0A, espresso-900: #1E0F05

oliv-600: #6B7C4A, oliv-800: #4A5733

crem-100: #F5EDD6, crem-200: #EDD9A3

Pasul 3: Butoane CTA homepage: teal → espresso, orange → oliv.

5. Deploy

6. Concepte tehnice

WCAG AA: raport contrast minim 4.5:1 pentru text normal.

Tailwind v4: culori custom prin @theme inline in CSS (nu config.js).

next/font/google: self-hosted, zero latenta, GDPR-friendly.

Wizard pattern: useState pentru step index, rendering conditional per pas.
